WJB 11-25-03

November 25, 2003

Ms. Whitney Ghoram  
California Regional Water Quality Control Board  
Attention: Ground Water Monitoring  
9174 Sky Park Court, Suite 100  
San Diego, CA 92123

RE:IC: 08-0211.01:ghorw

Dear Ms. Ghoram,

Thank you for your time on the phone this morning.

This letter will confirm that we have moved all the cows from our location at 622 E. Mission Road, San Marcos, CA 92069. Large portions of the facility have been sold to the San Marcos Unified School District and the City of San Marcos.

No cows will be milked on the property in the future and we will only be operating our processing and distribution facility.

Accordingly, we ask that Order No. 94-138 which was in place for our milking cows be rescinded.

Sincerely,

  
Pete de Jong  
Executive Vice-President

January 10, 2004

Dear Whitney Ghoram,

This letter is to request rescission of order #94-129. We moved our dairy to Lemoore, CA in November 1999, and my brother has rented the houses and facilities since that time. He houses heavy pregnant heifers on the dairy until they are ready to deliver, and then moves them across the street to his dairy.

Regarding the violation consisting of leftover manure piles:

Since leaving the Kesting dairy, the large stockpile has been gradually depleted, mainly through Stockalper Fertilizer company on an as need basis. John DeRaadt has also supplied various customers, such as landscapers, nurseries and farmers as needed.

On December 30, 2003, I drove down to Escondido. We borrowed and rented trucks and removed all of the manure accumulated from John's heifers and approximately 75% of the small piles of manure in the corrals that was scraped up after we moved the cows. The remaining manure was moved to a place on the dairy where it will be readily accessible for removal, and any runoff will go in series to the three waste water retention ponds, which were, as of December 31, 2003, all empty.

I hope we have resolved most of the concerns, but if there are any questions or problems please call me @ (559)924-7310.

Sincerely,

  
Jake DeRaadt

Ms. Whitney Gorham  
Sanitary Engineering Associate  
California Regional Water Quality Control Board  
9174 Sky Park Court, Suite 100  
San Diego, CA 92123-4340

Dear Ms. Gorham,

Thank you for inspecting our property today. We stopped washing sand on April 1, 2003. Since that time we have closed down our East Side operations and have not been using the recycled process water or the settling ponds. We have permitted the ponds to dry up. As you observed today these ponds have dried up.

We, therefore, request that WDR Order No. 95-56 be terminated.

Thank you again.  
Yours truly,

  
Rudy Morgenfruh

San Diego, CA 92123

Reference: Order No. 91-78

Regarding: Request to Rescind WDR Order No. 91-78

This letter is being submitted to the California Regional Water Quality Control Board to request that WDR Order No. 91-78 be rescinded.

### Comments

The use of reclaimed water to irrigate a portion of Interstate 5 right-of-way adjacent to the Encina Water Pollution Control Facility ceased as of September 24, 1996. The WDR Order No. 91-78 was maintained and renewed during this 6-year period with consideration that reclaimed irrigation could resume in the future. Management has determined that the Encina Water Pollution Control Facility will not supply reclaimed irrigation for the Interstate 5 right-of-way and respectfully request the California Regional Water Quality Control Board rescind WDR Order No. 91-78.

Should you have any questions, please do not hesitate to contact me at (760) 438-3941, extension 3120.

Respectfully submitted,

  
John Jardin, Operations Superintendent

Mark Alpert  
California Regional Water Quality Control Board  
San Diego Region  
9174 Sky Park Court, Suite 100  
San Diego, CA 92123

Dear Mr. Alpert:

Subject: Waste Discharge Requirement Termination

Thank you for taking the time with me to discuss the options Synagro West, Inc. has with respect to termination of several waste discharge requirements we hold within the San Diego Region of the California Regional Water Quality Control Board. With this letter we are requesting that the following waste discharge requirements be rescinded:

<u>WDR</u>	<u>WDID No.</u>	<u>Company</u>	<u>Invoice No.</u>	<u>Last Used</u>
93-045	9000000568	Synagro WWT, Inc.	0306745	2001
97-032	9000000766	Synagro WWT, Inc.	0306786	2001
97-042	9000000805	Synagro of Calif. Inc.	0306810	2001

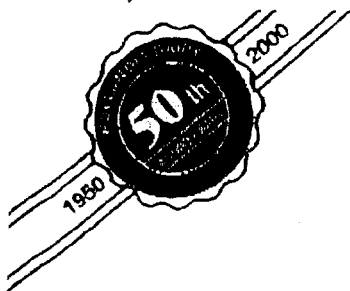

All of the sites were permitted for biosolids land application. As biosolids application ceased at the above sites in 2001, we are requesting that the annual fee for waste discharge requirements for the billing period 07/01/03-06/30/03 be waived. Please contact me at 909-277-2662, x. 23 or 909-322-0390 if you have any questions regarding this request.

Sincerely,

Mark A. Grey, Ph.D.  
Regional Director of Technical Services  
Synagro West, Inc.

To the Regional Water Quality Control  
Board

Attn: Whitney Gheram

This is to advise you that  
Dairy operations of the Cloverdale  
Dairy have long since ceased.

Please rescind order #94-137  
Since operations will not be  
resumed.

(Thank You Whitney for bringing  
to my attention that the order was  
still on the books.)

Sincerely

A handwritten signature in cursive script that reads "Pete de Jong".
